NUR UDDIN

AI-Driven Full-Stack Next.js Developer

Chattogram, Bangladesh nuruddinnur538@gmail.com +880 1766463242 github.com/nuruddin538

Portfolio Live

CAREER OBJECTIVE & SUMMARY

Self-driven and passionate developer seeking a junior or entry-level Full-Stack Developer position. Experienced in building modern, responsive, and high-performance web applications using **Next.js, React.js, TypeScript, and Tailwind CSS**. Leverages AI-assisted development workflows to boost productivity, solve engineering challenges, and deliver maintainable, component-driven architecture.

TECHNICAL SKILLS MATRIX

FRONTEND DEVELOPMENT
Next.js (App Router, SSR, Client/Server Components), React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, HeroUI.

BACKEND & AUTHENTICATION
Node.js, Express.js, RESTful APIs, Better Auth (Sign-in, Session Management, Protected Routes), Asynchronous JavaScript.

DATABASE MANAGEMENT
MongoDB (CRUD, Aggregations, Collections), Mongoose ODM (Schema Modeling & Data Validation).

TOOLS & ENGINEERING WORKFLOW
Git, GitHub, Vite, npm, Postman, Chrome DevTools, Vercel, Netlify, AI-Assisted Development (debugging & speed optimization).

FEATURED PROJECTS

1. BazarDor — Bangla Grocery Price Tracker [Live Demo] [GitHub]

Next.js, React.js, TypeScript, Tailwind CSS, Better Auth, REST APIs

- Bangla-focused daily grocery price tracker helping users monitor and compare market commodities.
- Implemented secure authentication workflows and protected route authorization using Better Auth.
- Built responsive product discovery with categories, detailed item metrics, and Bangla-friendly units.

2. DevStack — Technology Stack Builder [Live Demo] [GitHub]

React.js, TypeScript, Vite, CSS, React Toastify

- Interactive web application allowing developers to explore technologies and assemble personalized stacks.
- Implemented strict TypeScript-based data structures and fluid interactive technology card selection.
- Designed real-time stack state management and toast notifications across all screen breakpoints.

3. Fit-Log — Fitness Tracking Application [Live Demo] [GitHub]

React.js, TypeScript, Tailwind CSS, JavaScript, Context API

- Interactive workout logging web application built to track daily exercise routines, sets, and volume.
- State management with React Context API and mobile-first responsive gym dashboard layout.

PRACTICAL DEVELOPMENT EXPERIENCE

Full-Stack Next.js Developer — Project-Based Experience 2023 – Present

Personal & Academic Projects • Chattogram, Bangladesh

- Developed responsive web applications with Next.js App Router, React.js, TypeScript, and Tailwind CSS.
- Designed modular, reusable UI components and integrated RESTful APIs with asynchronous state handling.
- Implemented authentication with Better Auth and practiced backend API development with Express & MongoDB.
- Employed disciplined Git workflows and deployed applications continuously on Vercel and Netlify.

EDUCATIONAL BACKGROUND

Bachelor of Science (B.Sc.) — Physics, Chemistry & Mathematics Coursework Completed

Chittagong College, Chattogram, Bangladesh

Analytical thinking, mathematical logic, and quantitative scientific problem-solving.

Higher Secondary Certificate (HSC) — Science (GPA: 4.33 / 5.00) 2016 – 2018

Baitush Sharaf Adarsha Kamil Madrasah, Chattogram

Secondary School Certificate (SSC) — Science (GPA: 4.44 / 5.00) 2014 – 2015

Sakfura Darus Sunnah Kamil Madrasa, Chattogram
